September 28, 2007

Here we grow again! Great Western Containers Inc. (GWC) the home of "Great People, Great Products, Great Service", acquires Greif Inc. plant in Lloydminster, Alberta.

(Calgary, Alberta)...Nils Bodtker, President and C.E.O. of Great Western Containers Inc. is very pleased to report that on Friday, September 28, 2007, GWC signed an agreement that will see GWC acquire the Greif Inc. steel, fibre and plastic drum manufacturing plant assets in Lloydminster, Alberta. On October 9, 2007 we are scheduled to take over all operations at this facility.

Bodtker states that "This transaction enables GWC to immediately offer better People, Products and Services to our customers and should help open the door to an even broader array of product and service offerings in the future. We are very pleased to be able to grow our business with the addition of a proven winner in our industry."

Great Western Containers Inc. is Western Canada's most complete source of industrial containers and packaging supplies. We manufacture steel, plastic and fibre drums and recondition IBCs, steel and plastic drums. We also distribute plastic pails, steel pails, metal cans, plastic bottles and various packaging accessories. With seven locations across Western Canada, GWC is "your one stop packaging shop."
