August 1, 2008

**Here we grow yet again! GWC Services Ltd, the parent company of Great Western Containers Inc. (GWC) acquires Nemco Resources Ltd. in Winnipeg, Manitoba.**

(Calgary, Alberta)...Nils Bodtker, President and CEO of Great Western Containers Inc. (GWC) is very pleased to report that on Friday August 8<sup>th</sup>, 2008 GWC Services Ltd. (parent company of GWC) will sign an agreement that will see GWC Services Ltd. acquire all shares of Nemco operations in Winnipeg, Regina and Saskatoon. The deal is scheduled to close August 31, 2008 with GWC Services Ltd. assuming ownership September 1, 2008. Nemco will continue to operate under its well respected trade name as a subsidiary of GWC Services Ltd.

The Nemco name ([www.nemco.mb.ca](http://www.nemco.mb.ca)) has meant the finest quality motor oils, lubricants and coolants since 1983. The company was founded by current President, George Nemeth who had spent the previous 22 years working in the motor oil industry for companies like: Tidewater Oil, Turbo and Castrol. Today the company produces a combination of 900 products and packages while enjoying excellent brand recognition throughout Western Canada and Northern Ontario. The company is the most fully integrated of its kind in Western Canada with blending, packaging, private labeling, bulk terminals, blow molding and distribution capabilities from its plant in Winnipeg and warehouses in Regina and Saskatoon. Automotive, agriculture, mining, lumber, oilfield services and trucking are the major industries served by Nemco.

Your contacts at Nemco will remain as is. Mr. Nemeth has agreed to stay on board as a consultant for an indefinite period. All accounting functions, operations and processes remain unchanged as Nemco continues to operate under the Nemco Resources Ltd. banner. GWC will provide Nemco with the people and resources to seek growth and continuous improvement.

Mr. Bodtker states "I am very optimistic about the opportunities that we will generate for expanding the scope of our business over the next several years due to this merger. I wish George Nemeth a happy life in retirement. He has worked hard and effectively, earning that privilege."

When asked about his feelings regarding the sale of his business and upcoming retirement Mr. Nemeth said, “I have enjoyed a great ride and made many friends during my 47 years in the industry. I am pleased to be staying on with Nemco as a consultant and am confident that I have found an individual in Nils Bodtke who will treat my employees well and a company that will carry on the Nemco legacy.”

Great Western Containers Inc., the home of “*Great People, Great Products, Great Service*” is Western Canada’s most complete source of industrial containers and packaging supplies. We manufacture steel, plastic and fibre drums and recondition IBC’s, steel and plastic drums. We also distribute plastic pails, steel pails, glass bottles, plastic bottles, metal cans and various packaging supplies. With 7 locations across Western Canada, GWC is “your one stop packaging shop”.
